Summary

Aspiring Full Stack Developer with a strong foundation in HTML, CSS, JavaScript, and modern frontend frameworks, along with backend development using Node.js and Express. Skilled in building scalable web applications, developing RESTful APIs, and managing databases. Focused on writing clean, efficient code and creating user-centric, responsive interfaces. Eager to contribute to real-world projects and grow in fast-paced development environments.

Skills

Programming Languages: C, C++, JavaScript

Web Technologies: HTML, CSS, Tailwind CSS

Frameworks & Libraries: Node.js, Express.js, React.js

Database: MongoDB, Redis

Tools: VS Code, Postman, Figma, Canva

Core Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), DBMS

Experience

Deloitte Australia Technology Job Simulation (Forage)

July 2025

Virtual Experience Program

- Completed a hands-on job simulation focused on software development and coding tasks, gaining practical exposure to real-world technical workflows.
- Designed and proposed a dashboard solution, outlining key metrics, data flow, and visualization strategies to support business decision-making.
- Proposed dashboard covering multiple KPIs, enhancing data visibility.

Projects

Hotel Booking App (Frontend) | React, Vite, Tailwind CSS | Live

April 2026 – April 2026

- Developed a responsive hotel booking web application with a modern and user-friendly interface using React and Tailwind CSS.
- Implemented seamless navigation across multiple pages including Home, Rooms, Room Details, My Bookings, and Owner Dashboard using React Router.
- Built reusable and modular components to ensure scalable and maintainable code architecture.
- Integrated Clerk authentication for secure user sign-in and sign-up functionality.
- Designed key features such as room listing with filter/sort options, detailed room view with image gallery, and booking status interface.
- Created a fully responsive layout ensuring optimal performance across mobile, tablet, and desktop devices.

Portfolio Website | HTML, CSS, JavaScript | Live

March 2025 – March 2025

- Developed a responsive personal portfolio website to showcase projects, skills, and achievements.
- Built the UI using HTML and CSS with a focus on clean design, modern layout, and smooth user experience.
- Implemented interactive features using JavaScript such as navigation handling, dynamic content, and form validation.
- Ensured full responsiveness across devices using flexible layouts and media queries.
- Structured the project using reusable sections (Home, About, Skills, Work, Contact) for scalability and maintainability.

Awards & Certifications

- **Deloitte Technology Job Simulation:** Completed practical tasks involving real-world technology scenarios and problem-solving.
- **Full Stack Development Certificate:** Successfully completed training covering frontend and backend technologies.

Education

Bachelor of Technology - Electronics and Communication Engineering

Graduating: 2027

Budge Budge Institute of Technology, Kolkata, India
